

DOMESTIC MINOR SEX TRAFFICKING IN THE U.S.

In 2009, under a grant from the U.S. Department of Justice, **Shared Hope International** conducted undercover investigations that revealed many of America's children are being used in the commercial sex industry. Children who are exploited through **prostitution, pornography and sexual entertainment** are victims of domestic minor sex trafficking. Due to misidentification, ignorance, or efforts to keep victims safe from traffickers, these minors are often placed in detention facilities. **Growing demand** for sex with young, innocent children is fueled by a glorification of pimping and *normalization of sexual exploitation*.
