

Triple P - Positive Parenting Program

An evidence-based multi-tiered system for improving parenting practices, family well-being, and children's social and emotional well-being.

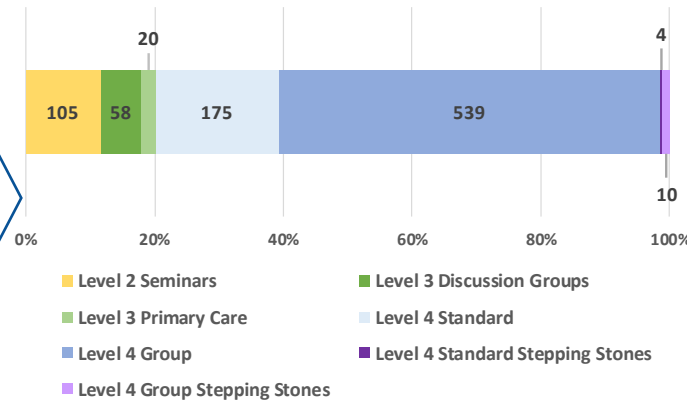

Triple P data contributed by:

- Cradle 2 Crayons
- Casa de los Niños
- Devereux
- Jewish Family & Children's Services
- Lutheran Social Services of the Southwest
- Maricopa County Department of Public Health
- Phoenix Children's Hospital
- West Valley Child Crisis Center
- West Yavapai Guidance Clinic

911 Arizona parents participated in Triple P Positive Parenting education, support, and intervention services in 2015 and 2016.*

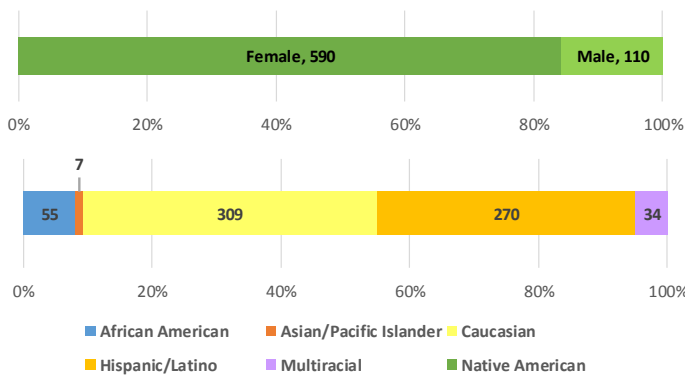

91% of the 728 parents who participated in Level 4 Triple P services reside in Maricopa County.

Language of Triple P Service:

Level 4 Triple P Parent Participant Characteristics:

Level 4 Triple P Child Characteristics:

Parents demonstrating clinically significant improvements after participation in Level 4 Triple P services:
Each circle below represents all parents who began Level 4 Triple P in the clinical range for child behavior problems and/or parental adjustment. The green portion represents the percentage who then completed Triple P in the non-clinical range.

Intensity of Child Behavior Problems

Extent to which Child Behaviors are Problematic

Parental Depression

Parental Anxiety

Parental Stress

*Triple P service provision began in Fall 2015. Individual family-level data, including pre/post outcomes using standardized questionnaires, were collected only for the Level 4 interventions. Funding for statewide coordination and evaluation, as well as training in Level 4 Standard and Level 4 Group interventions, was generously provided through a Steele Foundation Triple P Capacity-Building Grant to Prevent Child Abuse Arizona.
