This year's theme is **"Connection: The Power of Relationships,"** focusing on how building and strengthening relationships is critical to creating the world we want for children. Although the event will take place virtually, it will be **highly interactive**, and will provide lots of **fun activities and opportunities to engage directly with peers and presenters.**

Visit pcaaz.org/cap2020 for information on our keynote speakers and our 20 workshops on the latest information, ideas and best practices to support families and ensure positive outcomes for children.

Registrants will be able to view all workshops for up to 1 month after the conference!
